INSTITUTE OF
PUBLIC HEALTH
GANDHINAGAR

India's first Public Health University

Master of Hospital Administration
(August 2017- July 2019)

MASTER OF HOSPITAL ADMINISTRATION

About Hospital Administration

Indian healthcare sector is growing at a rapid rate. It has been estimated that till 2020, the sector will grow at a cumulative average rate of 16.5% and will touch US\$ 280 billion (18,48,000 Crore Rs) revenue mark (KPMG India). In terms of workforce requirement, it is estimated that the sector will create 40 million (4 Crore) new jobs (reported by AIMA in collaboration with BCG and CII). As of date, hospitals constitute the largest segment of the healthcare sector and account for approximately 70% of its revenue. For managing the rapidly growing hospitals, the demand for professionally trained hospital administrators is increasing rapidly. The rapid growth in demand for qualified hospital administrators is also backed by existing evidence that suggest that better managed hospitals generally have superior clinical outcomes, higher degree of patient satisfaction, and have higher likelihood of patients recommending the hospital to others.

In India, there is severe paucity of professionally trained hospital administrators. Limited number of academic institutes are focused on producing trained hospital administrators, while, the demand for qualified administrators is increasing rapidly. As a result, in many hospitals, senior practicing doctors are also performing the role of administrator. However, it places a significant demand on the time of these doctors, making it difficult for them to devote adequate time to both clinical and administrative work. As a result, either clinical or administrative work gets neglected, ultimately resulting in poor quality of care and/or poor patient satisfaction. Lack of trained administrators also result in inadequate second line of leadership in many hospitals and pose a serious challenge to the sustainability of healthcare initiatives taken by the hospitals. Hence, professionally qualified hospital administrators not only have a very good career prospects but also are pivotal to the growth of hospitals in India. They will have self-satisfaction of serving the suffering people in time of need in the hospitals.

Master of Hospital Administration (MHA) Programme at IIPHG

MHA programme offered by the IIPHG is a two year, full-time programme. The programme is designed to develop professionally trained administrators who can play an effective managerial role and provide leadership in public/private hospitals and healthcare institutions. For achieving its intended objective the programme curriculum is structured on a multi-disciplinary perspectives including general management and hospital management theories and practices. The classes will be delivered using a variety of teaching /learning techniques, including lectures, case discussions, practical exercises, lab-work, hospital visits, seminars, journal clubs, collaborative learning, group discussions, assignments, hands-on training, internship, and dissertation in hospitals.

The course is scheduled to begin from August 2017.

Faculty : IIPHG has 14 full-time faculty with medical, public health, management, and social science backgrounds. Most faculty have advanced qualifications from Indian and foreign universities of high repute. Additionally, subject experts from a pool of 75 PHFI faculty members and visiting/adjunct faculty from India and abroad also contribute to the IIPHG teaching programme. IIPHG will also draw upon highly experienced hospitals managers as visiting faculty.

Job opportunities after MHA : MHA degree open avenues to a career in Health and hospital Administration that contributes to the improvement of health and welfare of people. Potential employers include corporate hospitals, Government and trust hospitals, insurance companies, TPAs, medical equipment manufacturers and suppliers, pharmaceutical companies, diagnostic laboratories and clinics, medical transcription companies, managed care sector, companies dealing with home based care, medical tourism sector, medicine and hospital related start-ups. Multilateral and bilateral organisations like the World Health Organisation and other United Nation agencies, various state and central government departments, national and international non-governmental organizations, corporate social responsibility or industry-supported foundations, academic and research institutions, and allied health organisations also constitute an important employer segment. After MHA, student can also opt for higher studies in hospital administration in India or abroad. Placement cell at PHFI/IIPHG will help students find suitable employment after the completion of the programme.

Eligibility: The course is open to candidates with a bachelor's degree in any discipline from a recognised university, with at least 50% marks. Preference will be given to applicants having a graduate/bachelor's degree in any of the following fields - medical, dental, physiotherapy, AYUSH, nursing and paramedical sciences; veterinary sciences; management; natural sciences (including biology); social sciences and social work; engineering; law; commerce or accounting; communication; etc. Relevant work experience in health and development sector will be an advantage but are not mandatory.

- Exposure to workshops and conferences
- Focus on Innovation and entrepreneurship
- Well designed campus with modern teaching facilities

Hospital and practice linkages

- Practical trainings in hospitals via internship & dissertation
- Programme Advisory Committee of eminent doctors and business heads of leading hospitals

About PHFI and IIPHG

About Public Health Foundation of India (PHFI)

PHFI is a public-private initiative that collaboratively evolved through consultations with multiple constituencies, including Indian and international academia, state and central governments, multi- and bi-lateral agencies and civil society groups. PHFI aims to address the limited institutional capacity in India for training, research and policy development in the area of public health through the establishment of Indian Institutes of Public Health (IIPHS) across the country. Structured as an independent foundation, PHFI adopts a broad, integrative approach to public health, tailoring its endeavors to Indian conditions and bearing relevance to countries facing similar challenges and concerns. PHFI is the sponsoring organisation for all IIPHS.

Indian Institute of Public Health Gandhinagar (IIPHG)

IIPHG was set up in 2008 by the Public Health Foundation of India (PHFI) and the Government of Gujarat as a joint initiative. IIPHG is a pioneer institute in public health education, training, research and advocacy. The institute has been recognised as the first public health university in India a university established under IIPHG Act, 2015, of Gujarat State.
