

Master of Public Health (MPH)

**INDIAN
INSTITUTE
of PUBLIC
HEALTH**
ESTABLISHED BY PHFI

DELHI

(AUGUST 2024 SESSION)

Venue: Indian Institute of Public Health (IIPH)-Delhi

Master of Public Health (MPH)

BACKGROUND

The public health system in India can be strengthened through the presence of well-trained and competent public health professionals. Qualified public health professionals are a necessity to achieve the Sustainable Development Goals. Such an inter-disciplinary public health workforce can also advance the vision of Universal Health Care. The aim of our MPH program is to make public health education and research activities relevant to India in content and context, while attaining standards which are qualitatively comparable with the best in the world. The Indian Institute of Public Health-Delhi (IIPH-Delhi) is pleased to announce its call for applications for MPH for the academic year August 2024 - July 2026, affiliated to Academy of Scientific and Innovative Research (AcSIR), an Institute of National Importance under Government of India.

DEGREE AWARDING AND REGISTERING BODY

Public Health Foundation of India (PHFI) in collaboration with Academy of Scientific and Innovative Research (AcSIR) brings you this unique opportunity to further your career in the area of public health through the Master of Public Health program. The degree will be awarded by Academy of Scientific and Innovative Research (AcSIR). For more information visit <https://acsir.res.in/>

PROGRAM STRUCTURE

The MPH program is an intensive two-year full time program focusing on enhancing skills and abilities of students in research, management, problem solving, and critical thinking in the area of public health. The first three semesters include classroom-based, face to face teaching, tutorials and practicals (computer lab and public health activities in community). The final semester includes 6 months of project work (with dissertation). The student needs to successfully complete the coursework and the project work to be awarded the MPH degree. Students are encouraged for taking up internships during summer/ winter breaks between semesters, or after completion of the project work, only after due formal permission from their respective supervisors. Adequate institutional support will be provided to students for smooth completion of internship.

PROGRAM OBJECTIVE

- Prepare students in program organization and management, problem solving, and critical thinking in the public health domain
- Prepare students to undertake public health research in institutional and field setting
- Prepare students to work in socially, culturally and economically diverse populations by being attentive to needs of vulnerable and disadvantaged groups and well versed with existing health system
- Promote qualities of leadership and effective use of communication skills for health advocacy among students
- Prepare students for teaching/training posts in public health institutions

PROGRAM ADMINISTRATION AND LANGUAGE

The program utilizes a variety of teaching/learning techniques, which include lectures using Audio-Visual aids, demonstrations, group discussions, and presentation by students. Hands-on practice in computer-based applications and statistical software using computers will be imparted in several courses. The main language of instruction would be English. During internship, the students will get an opportunity to engage in research related activities while working in a community set up, a public health research organization, a NGO, a hospital or a laboratory.

PROGRAM CONTENTS

The multi-disciplinary curriculum includes core and elective courses. The core courses include: Introduction to Public Health; Basics in Epidemiology; Basic Biostatistics; Demography; Social and Behavioral Sciences in Health; Environmental and Occupational Health; Health Systems & Public Health Programs; Health Management, Health Economics, Financing & Policy; Research Methods; Public Health Nutrition; Communicable Diseases; Non-communicable Diseases; Scientific Writing - Proposal, Protocol development, and Report Writing. The elective courses include: Disaster Preparedness & Management; Monitoring & Evaluation (including HMIS); Systematic Reviews and Meta-analysis; Global Health; Advanced Epidemiology; Implementation Sciences; Health Economics, Financing and Policy; Gender, vulnerable population, emerging issues and Applied Statistics for Public Health.

At the end of this program, the following core competencies will be acquired by the candidates:

- Apply contemporary ideas to influence program organization and management, problem solving and critical thinking in public health domain
- Undertake operational research in institutional and field settings
- Work in socially, culturally and economically diverse populations by being attentive to needs of vulnerable and disadvantaged groups and be well versed with existing health systems
- Demonstrate qualities of leadership and mentorship
- Be an effective member of a multi disciplinary health team
- Demonstrate ethics and accountability at all levels (professional, personal and social)
- Practice professional excellence, scientific attitude and scholarship
- Demonstrate social accountability and responsibility
- Be open to lifelong learning

TARGET AUDIENCE AND ENTRY REQUIREMENTS

This program is relevant to those wishing to gain an in-depth understanding in the public health discipline.

Minimum Academic Qualifications

- Applicants with graduate qualifications in: Medicine, AYUSH, Dentistry, Nursing, Pharmacy, Veterinary Sciences, Physiotherapy, Occupational therapy, Allied and Health Sciences.
- Applicants with graduate qualifications in: Life Sciences, Biotechnology, Statistics, Biostatistics, Management, Engineering, Demography / Population Studies, Nutrition, Sociology, Psychology, Anthropology, Social Work, Economics, Law or any equivalent qualifications.
- All applicants should have basic computing skills and proficiency in English language.

SELECTION PROCESS

All candidates should submit the application form for the Master of Public Health program in the prescribed format. The candidate can apply online or also download the application form from PHFI website (<http://www.phfi.org/our-activities/academic-programmes/courses-and-admissions>). The application consists of registration form, proof of academic credentials, work experience, contact details of two referees (academic and/or professional) and a Statement of Purpose (SOP). The applicants will be short-listed based on their academic qualifications, relevant experience and Statement of Purpose.

Master of Public Health (MPH)

This will be followed by an interview. The selection of candidates will be conducted by a specially constituted selection committee represented by members from PHFI and AcSIR.

The final selection of the candidate for the MPH program is based on qualifications, relevant experience, statement of purpose and interview. The weightage for each component are as follows:

Qualification	-	20%
Relevant experience	-	10%
Statement of purpose	-	10%
Interview	-	60%
Total	-	100%

Reservation of seats in admissions will be as per Government of India policy as applicable from time to time.

FACULTY

A team of experienced and multidisciplinary faculty from PHFI and AcSIR would be engaged in teaching. The students will also be exposed to lectures delivered by invited faculty and a pool of adjunct faculty with PHFI of national and international acclaim. Guides will be identified from both the organizations for mentoring the project work (with dissertation).

CREDIT AND EVALUATION SYSTEM

The students will be evaluated by continuous evaluation and written examination for all the courses (core and elective). Towards the end of the final semester, the student will need to submit the thesis which will be evaluated. While the continuous evaluation is conducted during and at the end of the course, the exam for all the courses under each semester will be held at the end of the semester. The weighted average of continuous evaluation and semester examination will contribute to the course GPA. The program will follow a credit system consistent with AcSIR norms. Credits will be awarded for successful completion of each course and thesis. A total of 64 credits and a CGPA of at least 6.5 should be obtained compulsorily for awarding the degree.

PROGRAM FEES

The fee structure for Master of Public Health program for the candidates admitted in the year 2024-26 is as follows:

For Indian and South Asian Nationals

Tuition Fee:

The annual tuition fee for the students admitted for the academic session 2024-26 is Rs 2,40,000/- per student per academic year (the total tuition fee for the two year program is Rs. 4,80,000/- which includes Rs. 10,000/- admission fees and Rs. 10,000/- examination fees).

For International Candidates

Tuition Fee:

The annual tuition fee for the students admitted for the academic session 2024-26 is USD 7,200 per student per academic year.

Scholarship:

Limited number of scholarships for MPH may be awarded to deserving and meritorious candidates, subject to availability of funds, after starting of the program.

PLACEMENT OPPORTUNITIES

The project work and internship during the MPH program would provide the candidate with an opportunity to interact with potential organizations for employment. The placement cell at IIPH-Delhi supports the placement process by identifying relevant career opportunities for those who are seeking placement assistance. However, no formal guarantee would be provided to any candidate regarding future job selection after completion of the program.

ABOUT PUBLIC HEALTH FOUNDATION OF INDIA (PHFI)

PHFI is a public-private initiative that collaboratively evolved through consultations with multiple constituencies, including Indian and international academia, state and central governments, multi- and bi-lateral agencies, and civil society groups. PHFI aims to address the limited institutional capacity in India for training, research, and policy development in the area of public health through establishment of Indian Institutes of Public Health across the country.

Indian Institute of Public Health - Delhi is one of the five academic institutions under PHFI. The institute is actively involved in conducting academic programs- both on-campus and eLearning. Apart from Master of Public Health, it also offers other on-campus programs like Post Graduate Diploma in Public Health Management, Integrated MSc (Clinical Research) & PhD and PhD Program. The institute also offers a range of eLearning courses including, ePost Graduate Programs in Public Health Nutrition; Epidemiology; Management of Reproductive and Child Health Programs; Health Economics, Healthcare Financing & Policy and eCourses in Monitoring & Evaluation of Health Programs; Clinical Research Methods; Maternal, Infant, Young Child and Adolescent Nutrition (MIYCAN). admissions to be confirmed on first come first serve basis and final decision by selection committee

ABOUT ACADEMY OF SCIENTIFIC AND INNOVATIVE RESEARCH (AcSIR)

The Academy of Scientific and Innovative Research (AcSIR) is an Institution of National Importance established by an Act of Parliament, the Academy of Scientific and Innovative Research Act, 2011, which was notified in the Gazette of India on April 03, 2012. The Ministry of Education, Govt. of India has listed AcSIR as an Institution of National Importance (<https://www.education.gov.in/institutions-national-importance>).

The academic functionality of AcSIR is based on a 'Hub and Spoke' model, wherein the AcSIR Headquarter constitutes its 'hub' shouldering of the responsibilities of academics-cum-administration in the perspectives of policy decisions, academic programme, course curriculum, academic alliances/collaborations, centralized admissions, certification, academic monitoring, and internal quality control etc. 37 CSIR National Laboratories (Academic Centres) and 19 non-CSIR Laboratories (Associate Academic Centres) represent the 'spokes' to serving as academic campuses for teaching, learning and facilitation of doctoral research using world class research infrastructure and scientific workforce. Geographically, AcSIR offers the opportunity of pursuing Masters and Doctoral academic programs in Science and Engineering at more than 30 locations across the length and breadth of the country.

AcSIR has several academic collaborations with reputed International Universities to promote student mobility and exchange. Currently, for joint Ph.D. programs (Cotutelle), AcSIR has

Master of Public Health (MPH)

agreements with 3 International Universities– Royal Melbourne Institute of Technology University, Australia; University of Western Australia, Australia; Deakin University, Australia and 2 National Institutions namely National Institute of Ayurveda, Jodhpur and Institute of Teaching and Research in Ayurveda, Jamnagar.

The main objectives of AcSIR are:

- To disseminate advanced knowledge in science and technology, by providing teaching and research facilities in such branches of learning as it may deem fit, particularly in emerging areas and such areas as may emerge in future;
- To conduct courses in, and integrated into its courses, interdisciplinary and multi-disciplinary areas covering natural sciences, life sciences, mathematical and computational sciences, medical sciences, engineering relating to these areas and interfaces thereof;
- To take appropriate measures for innovations in teaching and learning processes;
- To establish linkages with industries in India and outside India for the promotion of science and technology;
- To collaborate, in appropriate areas in the field of science and technology, with reputed universities and institutions in India or outside India;
- To promote research in science and technology having an impact on social, economic, cultural, intellectual and academic welfare of the people;

This mandate of AcSIR is being achieved progressively through interdisciplinary and cross-disciplinary approaches covering the faculties and areas of Biological Sciences, Chemical Sciences, Engineering Sciences, Mathematical & Information Sciences and Physical Sciences. As on October 01, 2023, ~900 Masters and 3859 PhD students have already graduated from AcSIR. Currently, with about 7000 Ph.D Students on its rolls in Science & Engineering, AcSIR is the largest institution of Doctoral education in India and has awarded 577 Ph.D. degrees in the year 2022 in STEM.

The NIRF Ranking by the Ministry of Education ranked AcSIR at 12th position in 'Research' category in 2023. As per Nature Index Rankings, AcSIR occupies the 11th rank among Universities in India and 3rd rank in SCImago ranking (2023) among educational institutes in India.

UNIQUENESS OF THE PROGRAM

This public health program is a blend of basic and advanced principles of public health and their application in health sector. This program delivered by PHFI in partnership with AcSIR aims to deliver wide range of courses in key areas of public health, competency-driven curriculum, linkages with public health practice, emphasis on problem solving, case based learning, use of innovative pedagogy and focus on transformative learning. Successful completion of the MPH program may serve as excellent foundation to go on to take higher degrees like PhD (within and outside India).

OTHER PROGRAMS IN COLLABORATION WITH AcSIR

1. PhD Program at Indian Institute of Public Health-Delhi

The doctoral degree program in various areas of public health will enable PhD scholars to be future thought leaders in public health. The aim of this doctoral program is to generate knowledge and evidence in public health using scientific & innovative research and develop expertise in specific areas under public health to provide advanced knowledge, mastery of skills in leadership, management, communication, and innovative thinking.

2. Integrated MSc (Clinical Research) & PhD at Indian Institute of Public Health-Delhi

Integrated MSc (Clinical Research) & PhD is a full-time, 2-year program (with an option of pursuing PhD) being offered jointly by Public Health Foundation of India (PHFI) and Academy of Scientific and Innovative Research (AcSIR) since the academic year 2013-14 at the Indian Institute of Public Health Delhi. This multi-disciplinary program focuses on the scientific, ethical and operational issues related to clinical research. This program is a blend of basic and advanced research, and its application in health sector.
