Master of Public Health @ IIPH-Delhi
2016-18

**INDIAN
INSTITUTE OF
PUBLIC HEALTH
DELHI**

ABOUT PHFI

Public Health Foundation of India (PHFI) was conceptualized as a response to limited institutional capacity in India for strengthening training, research and policy development in the area of Public Health. PHFI was launched as a large scale, autonomously governed public private initiative on March 28, 2006 at New Delhi. One of the core mandates of PHFI is to institutionalize public health by creating Indian Institutes of Public Health (IIPHs) across the country.

With an objective to strengthen public health system in India, PHFI has launched a network of **five Indian Institutes of Public Health (IIPHs)** in Delhi, Hyderabad, Bhubaneswar, Gandhinagar and Shillong. With a vision to **become a benchmark in teaching, training and research** in the public health arena, the IIPHs are aimed at educating and nurturing human resources by providing quality training, to graduates from multiple disciplines, in various public health domains. Each IIPH works closely with state governments to conduct research relevant to the home state and surrounding regions, so as to contribute to overall national health goals.

INDIAN INSTITUTE OF PUBLIC HEALTH-DELHI

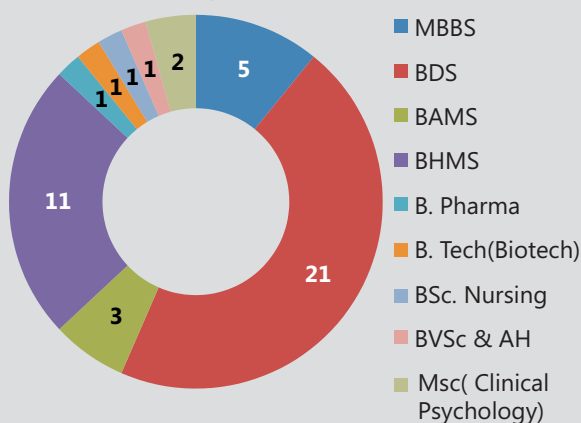

The Indian Institute of Public Health-Delhi (IIPH-Delhi) commenced its operations in November 2008. The institute offers Master of Public Health (MPH), an Integrated MSc & PhD program in Clinical Research (in collaboration with AcSIR) and Post Graduate Diploma in Public Health Management (PGDPHM). The programmes are aimed at fresh graduates as well as experienced professionals from health sciences, life sciences, social sciences, medical & allied health sciences. The programmes are also attended by mid-level government officials nominated by various State Governments.

Faculty members at IIPH-Delhi are with wide experiences ranging from Public Health, Community Medicine, Epidemiology, Health Management, Biostatistics, Demography, Health Economics, Health Policy, Health Social Sciences, Anthropology, Environmental & Occupational Health and Public Health Nutrition. Strong multidisciplinary teams representing major public health disciplines, with a broad range of technical and academic expertise, enable a multidimensional perspective to enrich the educational and research programs at the institute.

MASTER OF PUBLIC HEALTH @ IIPH-DELHI

The MPH program at IIPH-Delhi is a two year full time program, with a mandatory component of four months of dissertation and two months of internship in fourth semester. The aim of our MPH program is to make public health education and research activities relevant to India in content and context, while attaining standards which are qualitatively comparable with the best in the world. The program is affiliated to Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), Trivandrum (An Institute of National Importance under Govt. of India).

*Work Experience of Students (in years)

*Self sponsored students
