From the desk of Vice President-Academics

Dear Colleagues,

Greetings from Public Health Foundation of India!

I am delighted to present you the Placement Brochure for the year 2017-18. I would like to take this opportunity to thank you for the invaluable support you have extended to us over the years.

In a very short span of time, Indian Institutes of Public Health (IIPHs) have made a niche by providing competency driven academic programs in public health. Through our journey of academic programs we have constantly evolved to match with the changing requirements of employers. Our academic programs have been designed and consistently upgraded by us to help students acquire skills to identify and respond to current public health challenges. The programs are structured on a multi-disciplinary curriculum, including epidemiology, biostatistics, public health management, demography, sociology, health promotion and health economics. A blend of theoretical knowledge and practical skills can be seen at its best in our curriculum. The academic sessions and assignments have been designed and consistently upgraded by us to enable the students learn different aspects in the changing world of public health, through guest lectures, field visits, class assignments, presentations, group work etc.

Our students of outgoing batches of MPH, MSc and PGDPHM program across IIPHs for academic year 2016-2018 comprises of enthusiastic, vibrant, energetic and professionally competent students with heterogeneous background, persona and motivation for joining public health. Despite the heterogeneity, they are united by their values and commitment to create a niche for themselves in public health sector. I am sure that their commitment will make them a great asset to your organisation. Over the years, the employers have given a very positive feedback about our students, about their knowledge and skills in public health, commitment towards work and innovative ideas.

I wish a very successful career ahead to these students and invite the prospective employers to include IIPHs in their list of prominent institutions to be visited for campus placements. I am confident that our collaboration will go a long way and be helpful for these budding public health professionals to build their career. On behalf of the IIPHs, I extend a warm welcome to your organisation to participate in the placement process.

Prof. Sanjay Zodpey, MD, PhD

Vice President-Academics
Public Health Foundation of India

About Public Health Foundation of India

The Public Health Foundation of India (PHFI) is a public private partnership launched in 2006 with support from the Ministry of Health and Family Welfare (MoHFW), Govt.

PHFI was launched to redress the limited institutional capacity in India for strengthening training, research and policy development in the area of public health. The creation of PHFI was enabled by the Ministry of Health and Family Welfare, Government of India and was supported by several state governments, foundations including Bill and Melinda Gates Foundation, Wellcome Trust and the philanthropic private sector. PHFI adopts a broad, integrative, multi-disciplinary and multi sectoral approach to public health and engages with the many dimensions of public health that encompass preventive, promotive and therapeutic services. PHFI aims to play an enabling role in the

transformation of India's health scenario by working collaboratively with all stakeholders in the health system. It provides technical support and assistance to state governments for informing and aiding governmental initiatives. It also engages with the research community, academia, NGOs, civil society and international agencies towards a collective action on health.

“ Institutions (like PHFI) have a catalytic role to play (in the public health sphere in India) and can bring a transformational change ”

Hon' Prime Minister, Narendra Modi at the IIPH-Gandhinagar Bhoomi Poojan ceremony during his tenure as Chief Minister of Gujarat, 2007

Vision

“Our vision is to strengthen India's public health institutional and systems capability and provide knowledge to achieve better health outcomes for all “

Mission

- Developing the public health workforce and setting standards
- Advancing public health research and technology
- Strengthening knowledge application and evidence-informed public health practice and policy

Charter

PHFI is working towards building public health capacity in India by:

- Establishing Indian Institutes of Public Health (IIPHS)
- Assisting existing institutes to enhance their capacity and output
- Promoting research in prioritised areas of public health to inform policy and empower programmes
- Facilitating policy development, programme evaluation, and advocacy on public health related issues
- Enabling the setting of standards in public health education

Values

<p>Transparency</p> <ul style="list-style-type: none"> • Uphold the trust of our multiple stakeholders and supporters • Honest, open and ethical in all we do, acting always with integrity 	<p>Excellence</p> <ul style="list-style-type: none"> • Aim for highest standards in all aspects of our work • Encourage, recognise and celebrate our achievements
<p>Impact</p> <ul style="list-style-type: none"> • Link efforts to improving public health outcomes, knowledge to action • Responsive to existing and emerging public health priorities 	<p>Independence</p> <ul style="list-style-type: none"> • Independent view & voice, based on research integrity & excellence • Support academic and research freedom, contributing to public health goals and interests
<p>Informed</p> <ul style="list-style-type: none"> • Knowledge based, evidence driven approach in all we do • Drawing on diverse and multi-disciplinary expertise, open to innovative approaches 	<p>Inclusiveness</p> <ul style="list-style-type: none"> • Strive for equitable and sustainable development, working with communities • Collaborate and partner with other public health organisations

Public Health Education at PHFI

Over the past decade, PHFI has established five Indian Institutes of Public Health (IIPHs) located at Gandhinagar in Gujarat, Hyderabad in Telangana, Gurgaon in Delhi/NCR, Bhubaneswar in Odisha and Shillong in Meghalaya. The Indian Institute of Public Health–Gandhinagar (IIPHG) has been granted University status by a legislative Act of Gujarat state in May 2015. These institutes help to address the current shortage of trained public health professionals and workers by providing world class, India relevant programs in affiliation with renowned overseas Universities. The institutes deliver the courses in partnership with the central and the state governments.

The mission of PHFI and IIPHs is to respond to India's public health challenges, initiate and catalyse action for better health outcomes. The IIPHs strive to contribute towards creation of an effective public health workforce in the country. PHFI and its constituent Indian Institutes of Public Health are engaged in program and policy-relevant research, as well as imparting world-class education that is contextualized for the Indian setting. PHFI has also established several Centres of Excellence which work on cutting-edge evidence generation for informing public policy. These Centres of Excellence and our multidisciplinary team of researchers, with medical and non-medical backgrounds who specialize in technical areas such as health economics, health systems and financing, policy analysis, infectious diseases, chronic diseases, program management, epidemiology, clinical research, genetics, nutrition, biostatistics and demography bring a unique richness to the working environment at the Foundation.

The Indian Institutes of Public Health are delivering full-time one year **Post Graduate Diploma in Public Health Management (PGDPHM)**; two year **Master's in Public Health (MPH)** and two **Integrated MSc and PhD Programmes in Clinical Research and Health Informatics**. An internship/ training of 3-6 months is an important and mandatory component of each academic program. These programmes are aimed at fresh graduates as well as experienced professionals from medical & allied health sciences, life sciences, social sciences. The programmes are also attended by mid-level government officials nominated by the various State Governments.

Emerging as an institute of excellence in public health, our faculty brings multi-disciplinary experience and has hands on expertise in local, national, and international health settings.

These courses are targeted at a wide variety of graduates who are interested in public health training. The course eligibility criteria reflect the need for multi-disciplinary inputs that are vital to public health. IIPHs have over 65 highly qualified faculty and 100 technical staff with diverse experience. Their expertise is being put to good use in research, teaching and the practice of public health.

On Campus Academic Programs Offered at IIPHs

- Integrated MSc & PhD in Clinical Research*
- Integrated MSc & PhD in Health Informatics*
- Master of Public Health#
- Master of Hospital Administration**
- Post Graduate Diploma in Public Health Management@
- Basic Data Analysis for Health Sciences
- Associate Fellow of Industrial Health^

*Offered in collaboration with AcSIR

#At IIPH-Gandhinagar: offered by Indian Institute of Public Health Gandhinagar Gujarat, India (a university under State Government Act).

Why recruit IIPHs graduates?

Admissions to IIPHs are purely based on the candidates' merit and caters to applicants with varied academic backgrounds. The unique selection criteria at IIPHs includes analysing the candidate's attitude and focus towards the specialised field through a statement of purpose as a part of the application, followed by selection interview. This ensures selection of students who are not only the most capable but also those who are aligned to the specific course.

The course design is competency driven and caters to multiple-disciplines. The teaching methods includes seminars, group assignments, quizzes, case studies, role plays etc. We also offer professional skills development program (PDP) to prepare the students for employability after the course completion. Our academic programs include a 3-6 months internship and dissertation, which prepares the students to pursue a wide range of career paths post completion of the academic programs.

- Recruit our graduates and students for jobs and internships, and you will get benefitted from talent that comes equipped with skills in analysis, program management, problem solving skills and multi-tasking abilities.
- Recruit the best candidates with multi-disciplinary background, who will make a real difference to your public health projects by application of their skill sets drawn from practical application of theory.
- Our graduates are well equipped with technical and non-technical skills to work in public health and other allied healthcare sectors.
- Our mandatory internship and dissertation component gives the students an exposure to public health challenges and ways to address them.
- Our graduates are appreciated by employers for innovation at work and their commitment to bring a difference by willingness to work at community level.
- Batch diversity allows flexibility for employers to choose and recruit at the entry, middle management and senior management levels of organizations.

Post Graduate Diploma in Public Health Management (PGDPHM)

The programme aims to bridge the gap in the public health managerial capacity amongst health professionals in the country. It is designed to enhance the capacity of the public health managerial workforce and to impart knowledge and skills to address and resolve key health management challenges. A major strength of the programme is, providing participants with opportunities to apply learning directly within the community setting. The program is offered at IIPH-Delhi NCR, IIPH-Gandhinagar, IIPH-Bhubaneswar and IIPH-Hyderabad

Core Modules	Elective Modules*
<ul style="list-style-type: none"> • Public health concepts and practices • Bio statistics • Principles of epidemiology and research methodologies • Developing health informatics systems: Software, Hardware, Networks and Sensors • Telemedicine • Project management and evaluation of public health informatics systems • Cyber security for health • Patient monitoring systems • Clinical decision support systems • Electronic health records 	<ul style="list-style-type: none"> • Public health management • Health financing and insurance • Principles of environmental health sciences • Logistic planning and drug distribution • Public health nutrition • Urban health • National health programs • Electronic surveillance in public health • Data mining and data forecasting • Ethics in health informatics • Cyber security for health • Biometrics for health systems • GIS in public health • Wearable diagnostics • Consumer health informatics • Electronic medical education • Veterinary health informatics • Nursing informatics • Bio medical gene technology informatics

*Two elective modules each semester

Students' profile

 Mr. Solomon T B.Tech/B.E (Information Technology) <i>Hindusthan College of Engineering and Technology, Coimbatore</i>	Work experience in years	2-3 years
	Work experience	Omega Healthcare <i>Junior Process Associate</i> Institute of Vector Control and Zoonoses <i>Systems Manager</i>
	Areas of interest	1. Health data science 2. Personalized nutrition 3. Public health promotion 4. Health info-graphics
 Mr. Robin Lizzy Summy B.E (Biotechnology) <i>Visvesvaraya Technological University</i>	Work experience in years	Fresher
	Areas of interest	1. Epidemiology 2. Data science 3. Machine learning 4. Image analysis
 Mr. Rony Sunny B.E (Biotechnology) <i>Visvesvaraya Technological University</i>	Work experience in years	Fresher
	Areas of interest	1. Data science 2. Machine learning 3. Artificial intelligence
 Ms. Deepshikha Kansara Bachelor of Physiotherapy (B.P.T.) <i>Gujarat University</i>	Work experience in years	Fresher
	Areas of interest	1. GIS 2. Telemedicine 3. Cyber security for health 4. Electronic health record

 Dr. Shruti Singh Bachelor in Homoeopathic Medicine and Surgery (BHMS) <i>Kumaon University</i>	Work experience in years	4-5 years.
	Work experience	Mediassist India TPA Ltd. <i>Team Lead (Health Insurance)</i> Tara Homeopathic Clinic <i>Medical Officer</i> Singh Medical Research and Diagnostic Center <i>Residential Medical Officer</i>
	Areas of interest	1. Health data science 2. Health insurance and Finance. 3. Visual analysis 4. Spatial analysis
	Internship	Chandola Homeopathic Medical College and Hospital, Rudrapur, Uttrakhand <i>1 year rotatory internship (June 2011-June 2012)</i> <i>Project on Upper Respiratory Tract Infection, its causes and treatment with Homoeopathic Medicine</i>
 Ms. Jabeen Banu Post Graduate Diploma in Marketing and Healthcare Management <i>Kakatiya University</i> B.Sc Nursing <i>Nizams Institute of Medical Sciences</i>	Work experience in years	9-10 years
	Work experience	Synclaire Solutions Pvt Ltd <i>Director</i> Call Health Services Pvt. Ltd <i>Business Consultant</i> Ministry of Health, Saudi Arabia <i>Infection Control Department</i> L. V. Prasad Eye Institute <i>Program In charge for Nursing, Counselors and operation theatre technicians</i> Sreelatha Hospitals <i>Hospital Administrator</i>
	Areas of interest	1. Telemedicine 2. Healthcare Information system 3. Health data science 4. Mobile applications in healthcare

Life@IIPHs

Employers' Speak

During her internship Mahtab Irani showed desirable professionalisms in her conduct, planning her weekly schedules, timely accomplishing assignment and in reporting.

She is an efficient as team member; executed and coordinated all the task very efficiently. At many times she was tested with multitasking and she performed brilliantly.

She has a clear understanding of basic public health theories and methodologies. She is very much inquisitive and very meticulously has worked on qualitative analysis of health workers interviews.

She has significantly contributed in following assignments while her internship with INCLN

1. Literature review of community based hypertension assessment
2. Literature review on community mobilization for identification and management of sick newborns
3. Conducting in-depth interview with ANMs in Plawal district Haryana
4. Quality assurance of KAP survey forms
5. Data entry and analysis of qualitative data, using IQDAS® (qualitative data analysis software)
6. Drafting parts of baseline report.
7. Given an opportunity, she will be an asset to any organization in future and I wish all the very best to her.

Dr. Rupak Mukhopadhyay

Senior Program Officer

The INCLN Trust International

Nikita Soni is a talented, young, ambitious individual who worked closely with Action Against Hunger –India for three months as an intern. During her internship, she showed great commitment for the tasks she was assigned to. She was punctual and contributed generously to the projects under the India Mission.

She has good articulation skills and she can always improve on targeted or intended writings. Advocacy documentation is quite different from other forms of documentation. She showed a keen interest in learning how to document an advocacy material and learned quickly. Under proper directions, she explored potential knowledge hubs for essential information for the projects and drafted, updated and submitted crucial pieces for the organization. She was always willing to work and learn and at the same time supported in producing useful drafts for the mission.

With time, she should be able to capitalize on her strengths and develop additional potential skills for growth and prosperity in her future endeavors. I wish her all the best for her career.

Ms. Mousumi Gupta

HoD-Advocacy

Action Against Hunger

Thank you for providing us the wonderful intern, Sehr Brar, who has successfully completed her 3 months long internship with Monitoring & Evaluation department at Piramal Swasthya.

We were delighted to have her. She has completed all of her projects during her internship very well and proved herself as a hardworking, diligent, committed professional. My best wishes to her and wish success in all of her future endeavors.

Anukrati Saxena

Piramal Swasthya

PHFI Distance Learning Programs

PG Diploma Programs (1 year)	
1.	Post Graduate Diploma in Public Health Nutrition
2.	Post Graduate Diploma in Health Promotion
3.	Post Graduate Diploma in Epidemiology
4.	Post Graduate Diploma in Management of Reproductive & Child Health Programs
5.	Post Graduate Diploma in Public Health Services Management
