Public Health Foundation of India

Plot 47, Sector 44, Institutional area, Near HUDA City Centre metro station, Gurgaon-122002, Haryana, India

#### Key Contact person:

Ms Tanuja Bhandari, Assistant Manager – Program (Trainings)

Email: [trainings@iiphd.org](mailto:trainings@iiphd.org), Ph: +91 124 4722900 (Extn. 4110) [www.phfi.org](http://www.phfi.org)

#### About the workshop

In India, there are about 15 prominent Indian and multinational companies that manufacture and supply human and animal vaccines in India and across the world. There is need for cross-disciplinary engagement to collectively learn about issues in vaccine development, clinical trials, economic evaluations and implementation of vaccination programmes.

At the end of this training, the participant would be aware of recent advances made in the field of vaccine science, get acquainted with methods to conduct economic evaluation of vaccines. This course would also provide an overview of importance on vaccines in the context of public health and economic perspective.

#### Registration Fee

**Indian National:** 8000 INR per participant

**Foreign National:** 16000 INR per participant

The registration fee includes course kit, lunch and snacks. Please note that the participants will have to bear their own travel, boarding and lodging expenses. However, the organizers will be able to provide a list of hotels or guest houses nearby the institute upon request.

#### Who should attend?

This workshop is ideal for physicians, medical students, clinical and public health researchers, study coordinators, project managers, medical writers, data managers, pharmaceutical scientists, statisticians, and those working in the health services.

#### Contents

- To explain multifaceted nature of vaccinology
- To introduce evaluation of vaccine efficacy, effectiveness and safety
- To introduce economic evaluation and decision making process for new vaccines

#### About the faculty
