About the workshop

The 21st century has seen a lot of transition in the health and development sectors, with the focus being on transformative education and leadership. This reform depends on development of leadership skills and change agents. While sound managerial skills ensure results in the short and medium term, the progress of a country is shaped by managers with a vision and inspired leadership abilities. Leadership is a complex multidimensional concept; strong leadership is critical for realizing the vision of transformed healthcare and development sectors. In these fields, leadership serves as an asset to face challenges and is an important skill to possess.

In order to reach this goal, common leadership skills must be looked for among young as well as experienced professionals studying or working in the health and development sectors. This 4-day workshop aims to impart leadership skills to those in the health and development sectors. At the end of the workshop, the participants would be the ability to understand the requisite leadership attributes relevant to their respective work and workplaces, so as to address the challenges and needs of the population.

Registration Fee

Indian National: 8000 INR per participant

Foreign National: 16000 INR per participant

The registration fee includes course kit, lunch and snacks. Please note that the participants will have to bear their own travel, boarding and lodging expenses. However, the organizers will be able to provide a list of hotels or guesthouses nearby the institute upon request.

About the faculty

Dr. Preeti Negandhi, MBBS, MD (PSM), MSc, faculty at the institute will be the key resource. She teaches epidemiology, research methods and basic biostatistics to students of our on-campus as well as distance-learning academic programs. She is also the coordinator for the Post Graduate Diploma in Epidemiology at the institute. She is involved in research in the areas of maternal and child health, disease surveillance and education of health professionals.
