Workshop Series 2022-23

Basic Statistical Analysis using Stata (In-person) (March 20 - 24, 2023)

Last date of registration: 6th Mar, 2023

Course Coordinator: **Dr. Ranjana Singh**, Associate Professor, IIPH-Delhi

Registration form: <http://tof.phfi.org/>

About the course

With the evolution of statistical packages, quantitative analysis of the data is restricted not only to statisticians, even non-statisticians have ventured in analysing their own data. This workshop on Stata aims to enable the researcher in managing data, performing basic statistical and epidemiological analysis, turning raw data into effective tables, figures and other research products. This workshop will also empower the researcher to communicate confidently with the scientific community. Participants applying to this workshop are expected to have basic knowledge in biostatistics and do not require prior working knowledge in Stata.

Contents

- Data management using Stata
- Describing qualitative and quantitative data
 - Numerically and graphically
- Univariable analyses
 - For means, proportions, and rates
- Analysis of Variance (ANOVA)
- Linear regression
- Introduction to logistic regression
