Workshop Series 2022-23

Online workshop on “Operational Research in Public Health”

March 27-29, 2023

Last date of registration: 13th March, 2023

Course Coordinator: Dr. Saurav Basu, Assistant Professor, Indian Institute of Public Health- Delhi

Registration form: <http://tof.phfi.org/>

Note: This 3-day online workshop will be facilitated through CISCO WebEx platform of IIPH-Delhi, therefore, please ensure stable internet connection.

About the course

Operational Research (OR) or Implementation Research (IR) is the application of systematic research techniques to improve health programs. The purpose of OR is to improve programs and provide information for management decision-making. OR enhances program quality and facilitates efficient resource use. Successful OR is characterized by a close collaboration between public health personnel, program managers and researchers throughout the study. The value of OR is that it provides empirical evidence to support program decisions and thus advance optimal utilization of resources. Through innovative and interactive pedagogic techniques the course will augment the knowledge and skills of the participants in fundamentals of design, conduct, and reporting of OR.

Contents

- Overview and ingredients of operational research
 - Trends and themes in OR in LMICs and India
 - Relevance of OR to health policy (Case studies TB, NCDs, etc)
- Study Designs in OR- descriptive and analytical
- Experimental, quasi and non-experimental study designs
- Validity and reliability in OR
- Sampling approaches and basic analytical tools in OR
- Writing an OR proposal
- Writing an OR manuscript including literature review, reference management, and journal selection
