Few employers’ of IIPHs graduates /164
Dear Colleagues,

Greetings from Public Health Foundation of India!

I am delighted to present you the Placement Brochure for the year 2022-23. I would like to take this opportunity to thank you for the invaluable support you have extended to us over the years.

In a very short span of time, Indian Institutes of Public Health (IIPHs) have made a niche by providing competency driven academic programs in public health. IIPHs create an inclusive and global learning environment, which prepare our students and alumni for future leadership challenges. Our alumni are working in diverse areas of public health in India and abroad and contributing to this cause in varied ways.

Our academic curriculum is benchmarked with the industry requirements and focussed on field visits, case studies, class assignments, presentation, group work, journal clubs, research, hands on experience through dissertations and internships, which helps students identify and respond to current public health challenges. Alumni talks and Professional Skill Development sessions during the course, helps students develop their employability skills, which further develops a strong foundation for their career.

Our students of outgoing batches of MPH, M.Sc., MHA and PGDPHM program across IIPHs for academic year 2022-2023 comprises of enthusiastic, vibrant, energetic and professionally competent students with heterogeneous background, persona and motivation for working in public health and related disciplines. I am sure that their commitment will make them a great asset to your organisation. Over the years, the employers have given a very positive feedback about our students, about their knowledge and skills, commitment towards work and innovative ideas.

I wish a very successful career ahead to these students and extend a warm welcome to the prospective employers to include IIPHs in their list of prominent institutions to be visited for campus placements. I am confident that our collaboration will go a long way and be helpful for these budding public health professionals to build their career. On behalf of the IIPHs, I extend a warm welcome to your organisation to participate in the placement process.

Professor Sanjay Zodpey, MD, PhD, DSc
(Honoris Causa)
President - Public Health Foundation of India

From the desk of
President, PHFI
We at Indian Institutes of Public Health (IIPHs), have a commitment towards delivering public health academic programs through a blend of multidisciplinary faculty pool. For more than a decade, since their inception, IIPHs has created a niche for themselves through teaching, research and excellence in the field of public health. Our courses aim at comprehensive development, of our students through a blend of academic activities and relevant public health exposure. Every year our graduates add to the pool of trained public health professionals ready to make a mark in diverse profiles and contributing to the overall national development. The encouraging learning environment, coupled with an engaging pedagogy has helped our students acquire basic and specialized technical skills relevant to public health.

IIPHs are driven by the belief that the holistic development of students needs an environment that encourages their growth through regular mentorship. Our academic training to students, ensures that they are fully trained to pursue their professional career. I wish all the best to our students graduating from the batch of 2021-23 in their future endeavors.

I express our sincere gratitude to all those organizations and institutions who have extended their active support and helped us become a preferred choice to recruit public health graduates, in various profiles and important projects. Through this placement brochure, I extend a warm welcome to various organisations working in public health, clinical research, hospital administration and health informatics to recruit fresh talent through our pool of graduates, who will be an asset to your organisation.
The Public Health Foundation of India (PHFI) is a public private partnership launched in 2006 with support from the Ministry of Health and Family Welfare (MoHFW).

PHFI was launched to redress the limited institutional capacity in India for strengthening training, research and policy development in the area of Public Health. The creation of PHFI was enabled by the Ministry of Health and Family Welfare, Government of India and was supported by several state governments, foundations including Bill and Melinda Gates Foundation, Welcome Trust and the philanthropic private sector. PHFI adopts a broad, integrative, multi-disciplinary and multi sectoral approach to public health and engages with the many dimensions of public health that encompass promotive, preventive and therapeutic services. PHFI aims to play an enabling role in the transformation of India's health scenario by working collaboratively with all stakeholders in the health system. It provides technical support and assistance to state governments for informing and aiding governmental initiatives. It also engages with the research community, academia, NGOs, civil society and international agencies towards a collective action on health.

“Institutions (like PHFI) have a catalytic role to play (in the public health sphere in India) and can bring a transformational change.”

Hon’ Prime Minister, Narendra Modi-at the IIPH-Gandhinagar Bhoomi Poojan ceremony during his tenure as Chief Minister of Gujarat, 2007

“Our vision is to strengthen India’s public health institutional and systems capability and provide knowledge to achieve better health outcomes for all”
Mission

- Developing the public health workforce and setting standards
- Advancing public health research and technology
- Strengthening knowledge application and evidence-informed public health practice and policy

Over the past decade, PHFI has established five Indian Institutes of Public Health (IIPHs) located at Gandhinagar in Gujarat, Hyderabad in Telangana, Gurgaon in Delhi/NCR, Bhubaneswar in Odisha and Shillong in Meghalaya. The Indian Institute of Public Health – Gandhinagar (IIPHG) has been granted University status by a legislative act of Gujarat state in May 2015. We also operate an ancillary centre in partnership with Government of Karnataka at Bangalore since 2012. These institutes help address the current shortage of trained public health professionals and workers by providing world class, India relevant programs in affiliation with renowned overseas Universities. The institutes deliver the courses in partnership with the central and the state governments.

The mission of PHFI and IIPHs is to respond to Indias’ public health challenges, initiate and catalyse action for better health outcomes. The IIPHs strive to contribute towards creation of an effective public health workforce in the country. PHFI and its constituent Indian Institutes of Public Health are engaged in program and policy-relevant research, as well as imparting world-class education that is contextualized for the Indian setting. PHFI has also established several Centres of Excellence which work on cutting-edge evidence generation for informing public policy. These Centres of Excellence and our multidisciplinary team of researchers, with medical and non-medical backgrounds who specialize in technical areas such as health economics, health systems and financing, policy analysis, infectious diseases, chronic diseases, program management, epidemiology, clinical research, genetics, nutrition, biostatistics and demography bring a unique richness to the working environment at the Foundation.

The Indian Institutes of Public Health are delivering full–time one year Post Graduate Diploma in Public Health Management (PGDPHM); two year Master’s in Public Health (MPH); two year Master’s in Hospital Administration (MHA) and two Integrated M.Sc. and PhD Programmes in Clinical Research and Health Informatics. An internship/training of 2-6 months is an important component of each academic program. These programmes are aimed at fresh graduates as well as experienced professionals from medical & allied health sciences, life sciences, social sciences. The programmes are also attended by mid-level government officials nominated by the various State Governments.

Public Health Education at PHFI
Emerging as an institute of excellence in public health, our faculty brings multi-disciplinary experience and has hands on expertise in local, national, and international health settings.

These courses are targeted at a wide variety of graduates who are interested in public health training at large. The course eligibility criteria reflect the need for multi-disciplinary inputs that are vital to public health. IIPHs have over 54 highly qualified faculty and 100 technical staff with diverse experience. Their expertise is being put to good use in research, teaching and the practice of public health.

For more details regarding our academic programs, please visit www.phfi.org
Admissions to IIPHs are purely based on the candidates’ merit and caters to applicants with varied academic backgrounds. The unique selection criteria at IIPHs includes analysing the candidate’s attitude and focus towards the specialised field through a statement of purpose as a part of the application, followed by written test and selection interview. This ensures selection of students who are not only the most capable but also those who are aligned to the specific course.

The course design is competency driven and caters to multiple-disciplines. The teaching methods includes seminars, group assignments, quizzes, case studies and role plays. We also offer professional skills development program (PDP) to prepare the students for employability after the course completion. Our academic programs include a 2-6 months internship and dissertation, which prepares the students to pursue a wide range of career paths post completion of the academic programs.

- **Recruit our graduates and students for jobs and internships, and you will benefit from talent that comes equipped with skills in program management, problem solving skills and multi-tasking abilities**
- **Recruit the best candidates with multi-disciplinary background, who will make a real difference to your public health projects by application of their skill sets drawn from practical application of theory**
- **Our graduates are well equipped with technical and non-technical skills to work in public health and other allied healthcare sectors**
- **Our mandatory internship and dissertation component gives the students an exposure to practical public health challenges and ways to address them**
- **Our graduates are appreciated by employers for innovation at work and their commitment to bring a difference by willingness to work at community level**
- **Batch diversity allows flexibility for employers to choose and recruit at the entry, middle management and senior management levels of organizations**
Placement Brochure 2022-23

Post Graduate Diploma in Public Health Management (PGDPHM)

The programme aims to bridge the gap in the public health managerial capacity amongst health professionals in the country. It is designed to enhance the capacity of the public health managerial workforce and to impart knowledge and skills to address and resolve key health management challenges. A major strength of the programme is providing participants with opportunities to apply learning directly within the community setting. The program is offered at IIPH-Delhi, IIPH-Gandhinagar, IIPH-Bhubaneswar and IIPH-Hyderabad.

Curriculum of PGDPHM

Core Modules

- Foundation course
- Introduction to public health
- Demography
- Behaviour and social sciences in health
- Epidemiology
- Health communication & promotion
- Biostatistics
- Research methods
- Environmental and occupational health
- Communicable diseases
- Public health & nutrition
- Non-communicable diseases
- Essentials of health economics, health financing and insurance
- Epidemic/Emergency management
- Disease surveillance
- Health policy and planning
- Urban health
- Project management and strategic management
- Human Resource Management & Organizational Behaviour (HRM&OB)
- Gender, vulnerable populations & equity in public health and quality & access to health care
- Introduction to Health Technology Assessment
- Health systems, National Rural Health Mission (NRHM) and health sector reforms
- Financial management
- Management of MCH/RCH
Ms. Jeslin Emmanuel
M.Sc. - Cellulose and Paper Technology
Bachelor of Science (B.Sc.)-Zoology

Work experience in years: 1.5 years

Areas of interest
1. Epidemiology
2. Maternal and child health
3. Disease surveillance
4. Global Health

Work experience
1. Junior Research Fellow, Central Pulp and Paper Research Institute
3. Assistant Project Manager, JS Water Energy Life Co. Pvt. Ltd.

Achievements/Extra-curricular activities
1. **Volunteering/Internships**
   - Organizer at the cultural event with the theme “NAVARAS” at Forest Research Institute, Dehradun.
   - An active member of IFSA (International Forestry Students Association), participated in information drives for international ozone day, world wildlife week.

2. **Conferences**
   - Attended a lecture at NII (National Institute of Immunology) on “Can Regenerating Medicine involving stem cells conquer diseases and ageing?”
   - Attended lecture workshop on “DNA Fingerprinting” at Hindu College, University of Delhi.
The MPH program has been designed to help participants acquire skills to examine and respond to current public health challenges. The program is structured on a multi-disciplinary curriculum, including public health management, epidemiology and biostatistics, demography, social sciences, health promotion, health economics and policy, and other important disciplines.

3. Maternal & child health
4. Non communicable disease

Internship
2 months internship after MPH 2nd semester
IPE Global (Delhi)
Project: SAMRIDH

Dissertation topic
6 months dissertation during MPH final semester
Exclusive Breast Feeding (EBF) prevalence and associated predictors & barriers among urban working mothers in Delhi/NCR region: A cross-sectional study.

Work experience
1. General Dentist, Private Dental Clinics
2. Product Specialist, Dentalkart

Achievements/ Extra-curricular activities
• Awarded P&G Scholarship during MPH at IIPH-Delhi
Students’ speak

Yogita Goswami (Intern: Project SAMRIDH, IPE Global)

I completed a four-month internship with IPE Global for the SAMRIDH project. This project, which essentially consists of a healthcare blended finance facility, intends to improve India’s healthcare infrastructure and address current issues. Prior to this, I was unaware of the concept of blended finance. During my tenure I mainly searched the literature on blended finance in healthcare. Data review and proposal reviews were among the other jobs. I got to learn how to develop frameworks for monitoring and evaluating programmes, impact assessments for this project. Given the little resources currently available, Blended Finance is emerging domain needed to improve the healthcare system. A basic understanding of the concept will facilitate participation in future health initiatives.

Abhinav Bisht (Intern in Department of Epidemiology, National Institute of Health and Family Welfare, Delhi)

I got an opportunity to work on: secondary data of NFHS-5 to find out “Effect of IFA consumption in pregnant women, institutional births, postnatal care received by children within 2 days of delivery on Neonatal mortality in India” using STATA software, which helped me to strengthen my analytical skills. The internship helped me hone my skills to draft synopsis and thesis writing.

Preeti Kumari (Intern in Systematic review on protective effects of breastfeeding over maternal lifestyle disorders, National Institute of Health and Family Welfare)

Being from a clinical background I choose a topic related to maternal health. During the internship I learnt how to conduct systematic review, learnt SPSS software, had exposure to the cold chain management, NCDC, NHSRC, NTAGI and learnt about our role as public health professionals there. By the end of the internship I completed my systematic review on “Protective Effects of Breastfeeding over Maternal Lifestyle Disorders” and prepared a research article for which I also received appreciation from my mentor there and currently I am looking forward to publish my article in renowned journal.

Sneha Sinha (Intern in Department of Biostatistics, ICMR, NIMR)

Internship at ICMR,NIMR(Dwarka),was always on my checklist, and getting this opportunity was the best moment. I had an amazing learning experience under my supervisor. I gained exposure of data analytics. I got to learn how to work with data using statistical software's like STATA,R.I was also asked to do critical appraisal for various articles. The work environment was really appreciating and the skills I got to develop during this internship tenure will definitely help me for a bright upcoming career in this domain.

**Students need to opt for any 3 electives.**

1. Program implementation framework and financial planning: NHM
2. Data Visualization for Decision Making (DVDM)
3. Advance course on Immunization (AI)
4. Health Technology Assessment (HTA)
5. Impact Evaluation (IE)
6. Systematic Review and Meta-Analysis (SRMA)
7. Advance Qualitative Research (AQR)
8. Leadership Development and Change Management in healthcare (LDCM)
9. Corporate Finance Issues in Health Care (CF)
10. Study designs in Maternal Health (SDMH)
11. Principles of Laboratory Technologies and Services (LT)

**For 2nd subject there is choice that either they can select A or B**

- 3A Data Visualization for Decision Making
- 3B Advance course on Immunization
- 7A Advance Qualitative Research
- 7B Leadership Development and Change Management in healthcare
Students’ Profile of MPH, 2021-23 (Indian Institute of Public Health-Gandhinagar)

Dr. Aishwarya Anand
Bachelor of Dental Surgery (B.D.S.)

Work experience in years: 2.5 years

Areas of interest
1. Maternal and child health
2. Epidemiology
3. Disease surveillance
4. Global health

Internship
2 months Internship during MPH 2nd semester
Karuna Trust, Bangalore
Project: Management of Primary Health Centres through Public Private Partnership

Work experience
1. Associate Dentist, Sri Specialty Dental Care
2. Associate Dentist, Sri Renuka Sidda Dental Care

Achievements/ Extra-curricular activities
1. Poster Presentation
   - Presentation of Scientific Paper on the topic “Dental DNA Fingerprinting” at 47th IDA Karnataka State & 6th Interstate Dental Conference 13th-15th December 2019 as a Student Delegate.
2. Awards and Honours
   - Honoured with Proud Indian Award on 15th Aug 2021, for work at COVID care centre
   - University rank holder in B.D.S. in the subject Pre-clinical Conservative Dentistry, 2017
   - Topper of the batch 2015-2020 at AECS Maaruti College of Dental Sciences and Research Centre
3. Volunteering
   - External Monitor at World Health Organisation for Integrated Mission Indradhanush 4.0
   - Administered Polio Drops to children under UPHC Shantinagar, Bangalore for Pulse Polio Drive 2021 with VFC India
   - Conducted screening camp for oral and dental diseases for all the nurses at Karunashraya Hospice Trust, Bangalore with Rotaract Club Bangalore
4. Conferences
   - Participated in 47th IDA Karnataka State & 6th Interstate Dental Conference 13th-15th December 2019 as a Student Delegate.
   - Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar
Dr. Anushree
Bachelor of Dental Surgery (B.D.S.)

**Areas of interest**
1. National health programs
2. Maternal and child health
3. Communicable diseases
4. Health policy, finance and insurance

**Internship**

2 months Internship during MPH 2nd semester  
*National Health Authority (NHA), New Delhi*

Project: Policy on digitalization of Anti-biotic Prescriptions and supply to curb the increasing anti-microbial resistance in the country

**Achievements/ Extra-curricular activities**

1. **Poster Presentation**
   - Presented poster on Ergonomics in Dentistry in IDA conference 2018.

2. **Volunteering**
   - Volunteered as WHO external monitor for COVID Immunization by WHO
   - Volunteered in Sanjeevani: Health Mela organised by IIT Gandhinagar, 2022
   - Real time COVID testing and reporting at ICMR portal at IIPH-Gandhinagar research lab

3. **Others**
   - University and college rank holder for all years of Graduation (B.D.S.)

Ms. Angelia Ann Alexander
Bachelor of Science (B.Sc.)- Home Science, Nutrition and Dietetics

**Areas of interest**
1. Public health nutrition
2. Non-communicable diseases
3. Geriatric care
4. Mental health

**Internship**

2 months Internship during MPH 2nd semester  
*National Health Mission, Gujarat*

Project: National Program for Health Care of Elderly and National Program for Palliative Care

**Achievements/ Extra-curricular activities**

1. **Poster Presentation**
   - Secured 3rd prize in Breastfeeding week Poster Making competition from Indian Institute of Public Health, Gandhinagar in 2022
   - Secured 2nd prize in creating a video on Suicide Awareness from Dr. B.M.N. College of Home Science in 2020
   - Secured 1st prize in T-Shirt Painting Category on Mental health from Rotary Club of Bombay East and Dr. B. M. N. College of Home Science in 2020

2. **Awards and Honours**
   - Recipient of Dr. K. U. Naram Award from AFST(I) Mumbai in appreciation of securing First rank in B. Sc. In Nutrition and Dietetics from Dr. BMN College of Home Science in 2021

3. **Others**
   - Completed 5 Days Scientific Paper Writing Workshop at Dr. B.M.N. College of Home Science, MRC, Life course Epidemiology Unit, University of Southampton, UK in 2021
   - Attended National Social Service Special Camp and member of NSS at Dr. B.M.N. College of Home Science from 2018 to 2021
Dr. Priyanka Baishya

Bachelor of Dental Surgery (B.D.S.)

Work experience in years: 9 years

Areas of interest
1. Leadership and governance
2. National health programs
3. Global health
4. Environmental health

Internship
2 months Internship during MPH 2nd semester
Guwahati Medical College, Assam

Project: Cross-sectional study on Prevalence of depression in Geriatric Population In Guwahati City

Work experience
1. Dental Surgeon, Regional Dental College, Guwahati
2. General Dentist, Crystal Smile Dental Clinic, Guwahati
3. Entrepreneur and General Dentist, Dental Wellness, Guwahati

Achievements/ Extra-curricular activities
1. Volunteering
   - Organized various public health camps in collaboration with local bodies of Guwahati city, like Rotary club, Mahila Sanmillan and others.
   - Provided free dental treatment in some villages of Assam
2. Others
   - Stood second in Final year university exam

Ms. Prasangeeka Basnet

Bachelor of Science (B.Sc.)- Nursing

Work experience in years: Fresher

Areas of interest
1. Mental health
2. Gender and health
3. Reproductive, maternal and child health
4. Public health advocacy

Internship
2 months Internship during MPH 2nd semester
Foundation of Healthcare Technologies Society, Dehradun

Project: Evaluation of geriatric lifestyle enhancement related applications on Google Play Store using MARS as a tool for assessment

Achievements/ Extra-curricular activities
1. Volunteering and internships
   - Volunteered in a local based organisation for marginalised group of menstruators and adolescent girls, to empower them through awareness and de-stigmatize menstruation
   - Interned at The Soulful Mind for Counselling Psychology, which included sessions on case discussions, MSE case history taking, anxiety, OCD, depression, internet addiction, identity issues, emotional/sexual abuse/bullying/school refusal and body image issues along with therapeutic modalities
2. Conferences
   - Participated in State level conference on Recent innovations in Nursing Education, Practice and Research. The State Nursing Council has awarded 8 credit points.
   - In-service education programme on epidemic preparedness among health team.
   - In-service education programme on emergency management of critically ill cardiac patients
Dr. Gurneet Kaur Bedi
Bachelor of Ayurvedic Medicine and Surgery (B.A.M.S)

Work experience in years: 1 Year

Areas of interest
1. Tribal health
2. RMNCH+A
3. Program management
4. Water sanitation and hygiene

Internship
2 months Internship during MPH 2nd semester
SEARCH Gadchiroli
Project: Understanding tribal health

Work experience
Resident Medical Officer, Rashtra Sant Tukdoji Maharaj Cancer Hospital

Achievements/ Extra-curricular activities
1. Volunteering
   • Volunteered under National Service Scheme during BAMS final year
   • Served as an External Monitor for WHO under Intensified Mission Indradhanush in Ahmadabad district in 2022
2. Conferences
   • Attended three National Seminars in consecutive years during BAMS
   • Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar

Ms. Bijoylakshami Bhagwati
Bachelor of Science (B.Sc.)- Human Development and Family Studies

Work experience in years: Fresher

Areas of interest
1. Gender and health
2. Tribal health
3. Reproductive and child health
4. Environmental and occupational health

Internship
2 months Internship during MPH 2nd semester
Piramal Swaasthya
Project: Study on Traditional Healers and Traditional medicine under Tribal Health Collaborative

Achievements/ Extra-curricular activities
1. Awards and Honours
   • Gold medal for academic excellence from The Maharaja Sayajirao University of Baroda
2. Volunteering
   • Volunteered with Teach for India
Ms. Airpula Bhargavi
Bachelor of Physiotherapy (B.P.T.)

Work experience in years: 2 Years

Areas of interest
1. Epidemiology
2. Communicable and Non-communicable diseases
3. Environmental and occupational health
4. Policy making & planning

Internship
2 months Internship during MPH 2nd semester
SHSRC, Gujarat
Project: Assessing the performance key indicators of subdistrict district hospitals Gujarat

Work experience
1. Assistant physiotherapist, Vinoth Physiotherapy Clinic, Hyderabad
2. Junior Physiotherapist, Care Rehab, Secunderabad
3. Physiotherapist, Sweekar Multispeciality Rehabilitation Centre, Secunderabad for CDC and PMRC.

Achievements/ Extra-curricular activities
1. Scholarship
   • Awarded P&G Scholarship during MPH at IIPH-Gandhinagar

2. Volunteering
   • Volunteered as a student of physiotherapy for marathon runs programs conducted in 2018, 2019 by CARE hospitals Banjarahills.

3. Conferences
   • Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar
   • National physiotherapy conference by Telangana physiotherapy association 2014
   • National conference (PHYSIOVIMS- 2014)

Ms. Yashika Bhati
Bachelor of Science (B.Sc.)-Public Health

Work experience in years: Fresher

Areas of interest
1. Non-communicable disease
2. RMNCH+A
3. Environmental health
4. Health technology assessment

Internship
2 months Internship during MPH 2nd semester
ICMR, National Institute of Implementation Research for Non-Communicable Disease, Jodhpur, Rajasthan
Project: Knowledge assessment of people about air pollution in Jodhpur, Rajasthan

Achievements/ Extra-curricular activities
1. Volunteering
   • Volunteered at Lakshya Jeevan Jagrati NGO

2. Conferences
   • Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar
   • Attended Implementation Research India Summit 2022 at ICMR, National Institute for Implementation Research on Non-communicable Disease
Dr. Sarmistha Boruah
Bachelor of Dental Surgery (B.D.S.)

Work experience in years:
Fresher

Areas of interest
1. Maternal and child health
2. Non-communicable diseases
3. Communicable diseases
4. Immunization

Internship
2 months Internship during MPH 2nd semester
MAMTA- HIMC, New Delhi
Project: HCL Uday

Achievements/ Extra-curricular activities
1. Volunteering
   • Volunteered as WHO external monitor for COVID-19 vaccination 2022
   • Volunteered for Sanjeevani Health Mela, organised at IIT Gandhinagar, 2022
2. Conferences
   • Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar

Ms. Vaibhavi Chaudhari
Bachelor of Science (B.Sc.)-Nursing

Work experience in years:
Less than 1 year

Areas of interest
1. Nutrition
2. Maternal and child health
3. Immunization

Internship
2 months Internship during MPH 2nd semester
CHETNA NGO, Ahmedabad
Project: Nandghar project.

Work experience
1. Staff Nurse in ICU, Sushrusha memorial hospital
2. Staff Nurse in ICU, Apollo Hospitals International
Dr. Phalguni Chaturvedi

Bachelor of Dental Surgery (B.D.S.)

Work experience in years: 2 years

Areas of interest
1. Immunization
2. Maternal and child health
3. Non-communicable and communicable diseases
4. National health program

Achievements/Extra-curricular activities
1. Awards and Honours
   - Received Certificate of Appreciation – Indian Society of Periodontology.
   - First Prize, Quiz – Indian Association of Conservative Dentistry & Endodontics

Internship
2 months Internship during MPH 2nd semester
JHPIEGO, Madhya Pradesh
Project: Project BREATHE (Improving Coverage of COVID-19 Vaccination amongst Adolescents in Madhya Pradesh)

Work experience
1. Associate Dentist, Dr Khullar’s Dental Clinic and Implant Centre
2. Associate Dentist, Asha Dental Care
3. Observer, Government Dental College

Ms. Hetvi Anil Chauhan

Post Graduate Diploma (Applied Nutrition)
Bachelor of Science (B.Sc.)-Food and Nutrition

Work experience in years: Fresher

Areas of interest
1. Public health nutrition
2. Immunisation
3. Non-communicable disease
4. Program management

Achievements/Extra-curricular activities
1. Awards and Honours
   - Gold medal in PG Diploma at Maharaja Sayajirao University of Baroda

Internship
2 months Internship during MPH 2nd semester
Sewa Rural, Jagadia
Project: Research on Nutrition in Sickle Cell Anaemia

2. Volunteering
   - Volunteered for WHO COVID-19 vaccine monitoring & Surveillance in Navsari District

3. Conferences
   - Attended Annual National Nutrition Conference of Indian Dietetics Association (IDA), 2018, Indore, MP
**Ms. Harshita Chittora**  
Bachelor of Physiotherapy (B.P.T.)

Internship
2 months Internship during MPH 2nd semester
NHM, Rajkot
Project: RCH Program Management with a focus on RKSJK and AFHCs Gap Analysis.

Achievements/ Extra-curricular activities

1. Conferences
   - Attended ACIES 2021, The Public Health Conclave at IIPH-Gandhinagar
   - Indian Dental Association (IDA) for South Gujarat Conference 2019, Mount Abu (Organizing Committee)
Students’ speak

Aditi Sharma (Internship in: ICDS-WCD GOVT OF M.P)

The internship provided me a great opportunity to observe, learn and understand the practical exposure of government services. My work included field visit to AWCs, NRC units, departmental sessions. During internship, I also closely observed the functioning of ICDS services, daily height-weight assessment, weekly ANC check-ups, Immunization routine rounds, along with learning about various Govt. schemes and programs focusing on health and women protection and empowerment.

Manish Pal (Internship in: CARE India, Bihar)

During my internship, I conducted literature search and review on the topic “Understanding the reasons for the delay in diagnosis of VL cases” followed by filling inputs in the evidence table. The internship helped me acquire skills to prepare questionnaires for In-depth interviews and a code dictionary for its possible answer to the concerned study. Sessions on Data management and hands-on practice and on quantitative analysis in SAS software, helped develop my capacity further in research and analysis.

Yashika Bhati (Internship in: ICMR- National Institute for Implementation Research on Non-Communicable Disease)

The internship helped me understand the working of a research organization. I got first-hand experience in planning and conducting Quantitative research on the topic “Knowledge assessment of people about air pollution in Jodhpur, Rajasthan.” Further, this experience helped me hone skills in data collection, design intervention for the community through need assessment, data analysis using SPSS software and cognitive assessment. I was trained for using tools for the screening of depression and anxiety using Hamilton anxiety scale, Hamilton depression scale, Montreal cognitive assessment scale (MoCA) and PGI memory scale.

1. Optometric Consultant /Faculty/ Coordinator, Aravind Eye Care System, Coimbatore and Madurai
2. Consultant / Faculty / Manager of 6 Optometric departments, Narayana Nethralaya, Bangalore
3. Implementation manager / Head of Optometrists / Trainer / Programme Success Manager, (PAN India), Visionspring at Noida, Uttar Pradesh

Achievements/ Extra-curricular activities
1. Volunteering
   • Volunteered in Aravind Eye hospital - to train the students on optometry, counselling, OPD management, optical counselling, Optics, and refraction to DNB students
   • Conducted different eye camps in almost all the states in India

2. Conferences/ Seminars
   • Attended World Health Day Conference 2022, Bhubaneswar

Mrs. Itishree Sahu
Bachelor of Arts (B.A. Economics)

Work experience in years:
More than 10 years
Dr. Shuvashree Nanda
Bachelor of Dental Surgery (B.D.S.)

Work experience in years: Less than 1 year

**Areas of interest**
1. Epidemiology
2. Biostatistics
3. Maternal & child health
4. Public health research

**Work experience**
General Dentist, *Private Dental Clinic, Bhubaneswar*

**Achievements/ Extra-curricular activities**
1. **Internships/ Community work**
   - One month internship at IIPH-Bhubaneswar in Project: Building Primary Health Care Capacity for Urban Health
   - Field exposure during dental camps.
   - COVID duty during 2020-21 as a medical officer in Hi-Tech Medical College and Hospital

2. **Conferences/ Seminars**
   - Attended World Health Day Conference 2022, Bhubaneswar

3. **Others**
   - Student Representative during MPH at IIPH-Bhubaneswar
   - Student Placement Representative during MPH at IIPH-Bhubaneswar
Students’ speak

Arti Prabha Mandal

Public health itself is a vast field. Before I joined this course all I knew was just a few part of it. The more I’m getting into the field, the more I feel interested and grateful. It is all about protecting and improving the health of entire population, protecting the environment, increase awareness of public health care practices and establish new health programs or evaluate the existing ones. I’m glad to be a part of this institute. The teachers and staff here are very co-operative and helpful. They clear our doubts and questions as many times as we ask for, without being rude or frustrated. On a daily basis they adapt to the changing circumstances and our needs, all the while keeping our best interest at heart. Be it in the classroom or the online classes during lockdown, their patience, flexibility and compassion is great. From engaging us in community participation to organising guest lectures, they’ve provided their best support. The teaching technique is very unique here, not only from books but teachers work hard to prepare best presentations for us, provide us hand outs and engage us in class works (individual as well as group works) and assignments. They ensure that each and every student has equal participation and try to bring out our best. Along with the studies, there is also extracurricular activities held time to time to keep us motivated. It’s ensured that our needs and demands are always fulfilled. I appreciate their teaching skills and excellent performance. And I’m thankful for their immense efforts in making us capable.

Bhawna Agarwal

The Indian Institute of Public Health in Bhubaneshwar makes every effort to produce the most competent public health professionals. The education provided is of high quality, and both faculty and non-teaching staff are approachable, motivators, and friendly. They are concentrating more on skill and personality development, which are critical in the public health profession. The institute believes in a system of adult and open learning. The teachers are highly qualified and do their best to provide in-depth knowledge of the subject as well as the field of public professional world.

Ananya Patnaik

The MPH program at IIPH-Bhubaneshwar focuses on the community exposure in its health aspects. This course acts like a bridge between the community and the health system for the better healthcare delivery. The aspects of the course deals with the various diseases including all the social determinants and taking advantage of statistics, management, epidemiology, research and many more. The teaching style includes broad explanation and classroom participation about various topics. Group work, presentations and applied skills are vital along with day-to-day classroom interactions. Community exposure is also conducted which is the tool to improve one's applied skills. With various assignments and tasks to be done in MS-Word, EXCEL, and other software's which improve the skill set very well. Openness to learning and teamwork building are the focus areas with improving the leadership skills. Article reading and literature review are also included in the teaching style to gain an understanding of the specific topic and to evaluate the strength of the evidence upon which that knowledge is based.

Bollineni Sivateja

One of the best places to receive a public health education is the Indian Institute of Public Health in Bhubaneswar. The institute has always had a welcoming and healthy atmosphere for me. The professors are welcoming, knowledgeable, and skilled in their specialties. Every professor has a different approach to teaching that goes beyond the stereotype of traditional Indian education. They frequently use the reverse teaching method, which encourages students to think critically about the material and gets them ready for adult learning. The institute works hard to ensure that students are ready to excel in the typical field of public health by emphasising the necessary skill development rather than only the academic approach. The institute as a whole, including its teachers and personnel, is exceptional in what it does.
Curriculum of MPH at Indian Institute of Public Health -Shillong

The MPH program is designed to prepare students in problem solving and critical thinking in the public health domain, to work in socially, culturally and economically diverse populations by being attentive to needs of vulnerable and disadvantaged groups and well versed with existing health systems. It will also help promote qualities of leadership and effective use of communication skills for health advocacy among the students.

- Introduction to public health
- Social and behavioural sciences in health
- Gender, sexual and reproductive health
- Biostatistics and data management
- Epidemiology
- Introduction to environmental & occupational health
- Research methods
- Program management
- Tribal health

Students’ speak

Ibalakyntiew Lamare

Pursuing an MPH at IIPHS is the best move I’ve ever made. When I think back on day one of being a member of this family and where I am today, I realise how far I have come from having a stage fright to an open public speaker. They don’t only educate us about public health at IIPH Shilong; they also steer and guide us as we study and develop our areas of interest. I must state that we have a fantastic faculty, a nice staff dynamic, and a superb director who is always willing to accept our doubts and help us see the world through a new lens. Not only that, but they make us believe that our viewpoint is equally valued as others. We learned and appreciate learning new skills in a variety of disciplines, including health financing, RMCH+A, tribal health, SRH, epidemiology, and biostatistics. Our instructor has always been there for us and encouraged us to achieve better every day. I believe that this path will enable us to make a difference in our diverse fields and create a brighter future for Public Health and the community as a whole.

Mousmi Singh

I am a Medical Doctor with around 8 years of work experience in various clinical and non-clinical settings including ECHS and currently pursuing MPH from IIPHS. Besides providing a brush-up on my existing clinical knowledge, this course helped me to learn and develop a better understanding of various domains of public health. MPH was a great learning opportunity and experience for me. It not only provided an in-depth knowledge of the prevailing public health issues but also helped me to learn and understand how I can contribute to mitigating the same through the knowledge I gained. I now have expertise in Epidemiology, Biostatistics, and Health Policies and Programmes. We were also given hands-on training on various software such as SPSS, STATA, QGIS, etc. MPH helped me to learn about various issues from a public health perspective. This course also helped me inculcate leadership qualities and skills like public speaking, teamwork, communications, and other soft skills.

Mercylin Lyngdoh

I am thankful to have join MPH as through this course, I have learnt new concepts like emergency preparedness, epidemiology, biostatistics and many of the software. The course has helped me to be more extrovert and approachable, and also helped in develop my technical skills. Through MPH, I hope to be able to help the community in seeking health and get equal opportunities regarding their health and safety.

Rubi Kalai

The journey till here has not been an easy road, as it was deeper than I thought it would be. Coming to this course I knew I had to come out of my comfort zone and thus, took it as a challenge to grow. Especially communicating with people and working together and sharing my opinion were a big challenge for me which I learnt from this course. This course helped me think rationally and critically about every choice that we made.
IIPH-Gandhinagar (MHA), 2021-23

Master of Hospital Administration (MHA)

The programme is designed to develop professionally trained administrators who can play an effective managerial role and provide leadership in public/private hospitals and healthcare institutions. For achieving its intended objective the programme curriculum is structured on a multi-disciplinary perspectives including general management and hospital management theories and practices.

Students need to opt for any 3 electives.

1. Program Implementation framework and Financial Planning: NHM (NHM)
2. Data Visualization for Decision Making (DVDM)
3. Advance course on Immunization (AI)
4. Health Technology Assessment (HTA)
5. Impact Evaluation (IE)
6. Systematic Review and Meta-Analysis (SRMA)
7. Advance Qualitative Research (AQR)
8. Leadership Development and Change Management in healthcare (LDCM)
9. Corporate Finance Issues in Health Care (CF)
10. Study designs in Maternal Health (SDMH)
11. Principles of Laboratory Technologies and Services (LT)

For 2 subject there is choice that either they can select A or B

- 3A Data Visualization for Decision Making
- 3B Advance course on Immunization
- 7A Advance Qualitative Research
- 7B Leadership Development and Change Management in healthcare

Why recruit MHA graduates from IIPH?

- Our MHA graduates are well equipped with managerial and technical skills for steering hospitals towards excellence.
- Our MHA graduates are equipped with knowledge of government policies and programmes, and hospital management.
- Our mandatory field immersion, internship, and dissertation cum live-project component gives the students an intense exposure to practical challenges faced by the hospitals and ways to address them.
- Our MHA graduates have high level of cross disciplinary learning from peers with diverse background.
- Our MHA students possess a unique blend of capabilities and skills enhanced through rigorous course work.
USP of the program

- Multi-disciplinary program structure- including general management and hospital management theories and practices
- Rigorous blend of class and field based learning components
- Program delivery using variety of teaching techniques- lectures, case discussions, practical exercises, lab-work, hospital visits, seminars, journal clubs, collaborative learning, group discussions, assignments, hands-on training, internship, and dissertation in hospitals
- Close collaboration with hospital sector
- Leading doctors and professionals from renowned hospitals as advisory board members to keep the curriculum focused on the needs of the Indian hospital sector
Students’ Profile of MHA, 2021-23
(Indian Institute of Public Health-Gandhinagar)

Dr Abhbi Shah
Bachelor of Homeopathic Medicine and Surgery

1. Volunteering  
   - Volunteered in Bhaktivedanta Hospital medical camps |

| **Mr. Sujan Debnath**  
Bachelor in Hospital Management (BHM)  
**Work experience in years:** 1.5 year  
**Area of Interest:**  
1. Operations management  
2. Health care IT  
3. Quality management  
4. Consultancy  
**Internship**  
2 months internship during MHA 2nd semester  
*BAPS Yogiji Maharaj Hospital, Ahmedabad, Gujarat*  
Project: An overview of the operational departments at BAPS hospital, with a focus on identifying the scope for improvement  
**Work Experience**  
1. Patient Care Officer, *Jupiter Hospital, Pune*  
**Achievements/ Extra-curricular activities**  
1. Volunteering  
   - Student Representative of Placement Cell at IIPH-Gandhinagar |
**Dr. Surbhi Kapoor**

**Bachelor of Dental Surgery (B.D.S.)**

**Work experience in years:**
Less than 1 year

**Area of Interest**
1. Consultancy
2. Health IT
3. Quality
4. Operations

**Internship**

*2 months internship during MHA 2nd semester*

*Medanta-the Medicity, Gurugram*

Project: to list out all hazardous chemicals used by various departments along with their Global Harmonized Symbol (GHS) tagging

**Work Experience**
1. Associate Dentist, Sahu Dental Care

**Achievements/ Extra-curricular activities**

1. **Volunteering**
   - Volunteered in Pledge A Smile Foundation - 1 Month summer intern

2. **Poster Presentation**
   - Radiation safety and protocols in hospital and private setting (2019)
   - Poster Presentation and volunteer on World No Tobacco Day (2019)

3. **Seminars and Workshops**
   - Attended Seminar On “Role of Periodontology in Enhancing our Dental Practice” - 2020
   - Attended hands on work shop on Forensic Odontology- Basics and Beyond (2018)
   - Organised and attended workshop on “Instructional Method for Student Engagement and Formative Assessment Methods” (2020)

4. **Others**
   - Organised and Conducted IDA Impulse(2016, 2018)
   - Participated in "Art Effect-. A Venture to Show Your Mettle Teeth Arrangement Competition“ (2017)
   - Certificate Course On “Master Key- Soft Skills in Dentistry” (2019)

---

**Dr. Urvashi Vaghamshi**

**Bachelor of Homeopathic Medicine and Surgery (B.H.M.S.)**

**Work experience in years:**
Fresher

**Area of Interest**
1. Hospital
2. Public Sector
3. NGO’s
4. Insurance

**Internship**

*2 months internship during MHA 2nd semester*

*Sheth Shri Pukhraj Raichand General Hospital, Ahmedabad, Gujarat.*

Project: To understand the management and functioning of various departments of tertiary care hospital in Ahmedabad
Ms. V V Aishwarya

Bachelor of Science (B.Sc.)- Medical Biotechnology

Work experience in years: Fresher

Area of Interest
1. Operations
2. Quality
3. Marketing
4. Consultancy

Internship
2 months internship during MHA 2nd semester

HCG Cancer Centre, Bangalore
Project: Time and motion study of the discharge process and the outpatient department of various specialisations

Dr. Vaidehi Muley

Bachelor of Dental Surgery (B.D.S.)

Work experience in years: 1 year

Area of Interest
1. Insurance
2. Hospital operations and quality
3. Consultancy
4. Program health coordination

Internship
2 months internship during MHA 2nd semester

HCG Cancer Centre, Bangalore
Project: Improvement in discharge process in IP department

Work Experience
1. Associate Dentist, Muskan Dental Clinic, Bhopal

Achievements/ Extra-curricular activities
1. Poster Presentation
   • 3rd prize in a Poster presentation at AIIMS titled Antitobacco
Dr. Vishwa Modhia

Bachelor of Homeopathic Medicine and Surgery (B.H.M.S.)

**Work experience in years:** 1 year

**Area of Interest**
1. Data analysis
2. Health economics
3. Healthcare IT
4. Health financing & policy

**Internship**
- 2 months internship during MHA 2nd semester
- Marengo CIMS Hospital, Gujarat
- Project 1: FMEA On Dietary Errors
- Project 2: Critical process monitoring of blood collection practices

**Work Experience**
1. Medical Officer, New Life Hospital
2. Medical Officer, BAAG Occupational Health Centre
3. Medical Officer, Kidney Care Hospital

**Achievements/ Extra-curricular activities**
1. **Awards and Honours**
   - Hamdard Foundation Scholarship Award 2021
2. **Volunteering**
   - Volunteered in Life of Hopes (NGO) 2021
   - Organizing Committee, ACIES 2021- A National Public Health Conference (IIPH-Gandhinagar)

Ms. Yashkirti Rawat

B.Sc Nursing

**Work experience in years:** 1.5 year

**Area of Interest**
1. Consulting
2. Healthcare IT
3. Data analysis
4. Pharmaceuticals

**Internship**
- 2 months internship during MHA 2nd semester
- MAX Hospital, Saket, Delhi.
- Project: Automated Admission Management system

**Work Experience**
1. Nursing Officer, Medeor Hospital

**Achievements/ Extra-curricular activities**
1. **Volunteering**
   - Organizing Committee, ACIES 2021- A National Public Health Conference (IIPH-Gandhinagar)
   - Member of COVID committee at IIPH-Gandhinagar
   - Member of Arts committee, Sharda University
Dr. Yesha Dixit
Bachelor of Dental Surgery (B.D.S.)

Work experience in years:
Fresher

Area of Interest
1. Quality
2. Hospital administrator
3. Operations

Internship
2 months internship during MHA 2nd semester

KD Hospital, Ahmedabad, Gujarat
Project: Employees’ perception of recruitment and selection process in KD hospital
Students’ speak

Payal Bisht (Internship in: Medigence Solutions Pvt Ltd, Ahmedabad)

The internship helped me develop Standard Operating Procedures (SOPs) for 8 single and multi speciality hospitals. I got an exposure to prepare job descriptions for different positions, creating a room data sheet for a single speciality 25 bedded hospital, costing data sheet for a super speciality 1500 bedded hospital and coordinating with different hospitals for their NC (non-compliance) closure. Further, working with Project Managers helped me understand NABH sensitization sessions, organise and conduct training sessions for each of the recognized emergency code of the hospital like CODE BLUE, RED, ORANGE, PINK and TRIAGE training.

Sujan Saha (Internship in: National Health Mission – Tripura (SH&FWS))

The internship helped me acquire knowledge about National Health Mission, its various programs and functional activities. I was engaged in various programs and schemes viz, RCH, JSSK, JSY, NQAS, Kayakalp, RKS/HMC and HWM. Further, I got an opportunity to understand three levels of public healthcare delivery facilities, overview of District Hospitals and its managed care and also work on Service Availability and Human Resource Gap analysis as per IPHS guidelines in District Hospitals.

Mehak Chhabra (Internship in ZS Associates)

I was given the opportunity to analyze the quarterly reports of pharmaceutical companies while working as a knowledge management associate in the strategy and transformation team. Additionally, learn about newly released drugs as well as those still in research and development. Further working with the ZS team I have learned about pharmaceutical companies’ projected revenue.
Indian Institute of Public Health-Delhi

Integrated MSc. and PhD in Clinical Research

This multi-disciplinary program focusses on the scientific, ethical and operational issues related to clinical research. This Clinical Research program is a blend of principles of basic and advanced research and its application in health sector.

Curriculum of Integrated M.Sc. and PhD in Clinical Research

<table>
<thead>
<tr>
<th>Semester 1</th>

Topic: Association of short-term exposure to air pollution with depression in Asthma patients: cross-sectional study.

**Internship**
2 months after M.Sc. CR 2nd semester
ICMR-NIMR, Dwarka
Project: Clinical Data Management, Data Analysis, Systematic Reviews and Meta-Analysis

**Work experience**
1. CIDP Biotech Pvt. Ltd, Clinical Trial Assistant
2. ICMR-NIMR (Dwarka), Research Intern

**Achievements/ Extra-curricular activities**
- Rank holder during school and graduation
- Secured first position in National Children's Science Congress (2015 & 2016) at the Zonal and Central level.
Students’ speak

Mansi (Internship in Assessment of the Covid-Free Village Program (CVP) for Covid-19 risk reduction, PHFI)

It was a great learning experience since I got the opportunity to work with real-world data and became familiar with challenges that arise during the implementation of a project. Moreover, I was able to improve my data analysis skill in STATA. Furthermore, I got the opportunity to build a network with new people working in a similar field.

Nikhil Kumar Khatri (Clinical Research Associate-Intern, Abbott(Medical Devices division))

During my Internship period I worked on Document Management-Site Binder preparation, Sponsor master file preparation, IRB submission, assisted in periodic monitoring visit, worked with sites during follow up and Query management. This will definitely help me with my future goals to be a part of Clinical operations team.

Sakshi Pandey (Internship in Assessing the impact of inclisiran on major adverse cardiovascular events in participants with established cardiovascular disease, Aakash Healthcare Private Limited)

As a Trainee Clinical Research Coordinator during my internship, I was able to get a better understanding of how the clinical operations industry works and how effective it is. I enjoyed working with them and learnt clinical trial activities/ documentations, clinical databases and clinical study visits of patients. I had practical interactions with patients, coordinators, investigators, and regulatory affairs specialists. Skills I gained over there was effectively working under pressure and time management. The manager was satisfied with my work. She also praised me for being a hard working and dedicated person as I managed to recruit patients for the study and maintained high quality data.
Integrated MSc. and PhD in Health Informatics

This multi-disciplinary program focuses on innovation-led approach to design, develop and deploy digital solutions for health care. This health informatics program is a blend of precise needs assessment, in-depth understanding of health care works combined with cutting-edge digital solution development process.
