Workshop Series 2024-25

### In-person workshop on Project Management of Health Programs September 09-13, 2024

Course Lead and Coordinator: Mr. Shomik Ray, Professor, IIPH-Delhi

Application: <https://phfi.org/iiphd-trainings-workshop/>

#### About the course

This workshop would cover key issues in project management and go through each part of the Project Cycle Management. It aims to provide participants with certain tools of project management that would enable managers to use/assess and respond to issues in their own workplaces. The training would use adult learning methods including case studies and practice sessions.

At the end of the workshop, the participants are expected to be capable of designing a robust health project with a focus on final results, identifying various project management activities, and using relevant tools for efficient functioning.

#### Contents

- Project Management
- Project Cycle Management
  - Scenario Definition and tools therein
  - Design and Development and tools therein
  - Implementation and Monitoring and tools therein
- Evaluation
- Tools in project Management
  - The Logical Framework
  - Project Prioritization Matrix
- Stakeholder Management Framework
- Risk Management Framework

#### About the Faculty

Shomik Ray would lead the training program. He is a senior faculty at IIPH Delhi and has 24 years of experience in the development sector in India. He specializes in Program Management and Economic Evaluation and has a special interest in training.

#### Who should attend?

This workshop is suitable for development and public health workers involved in managing projects. It is expected to be beneficial for health service personnel with the responsibility of managing health posts. It would also be suitable for medical residents, faculty involved in clinical research, researchers from the industry, clinical trial managers, PhD scholars, program managers, and health professionals involved in clinical care.
